PROFESSIONALISATION  
AND CAPACITY  
BUILDING

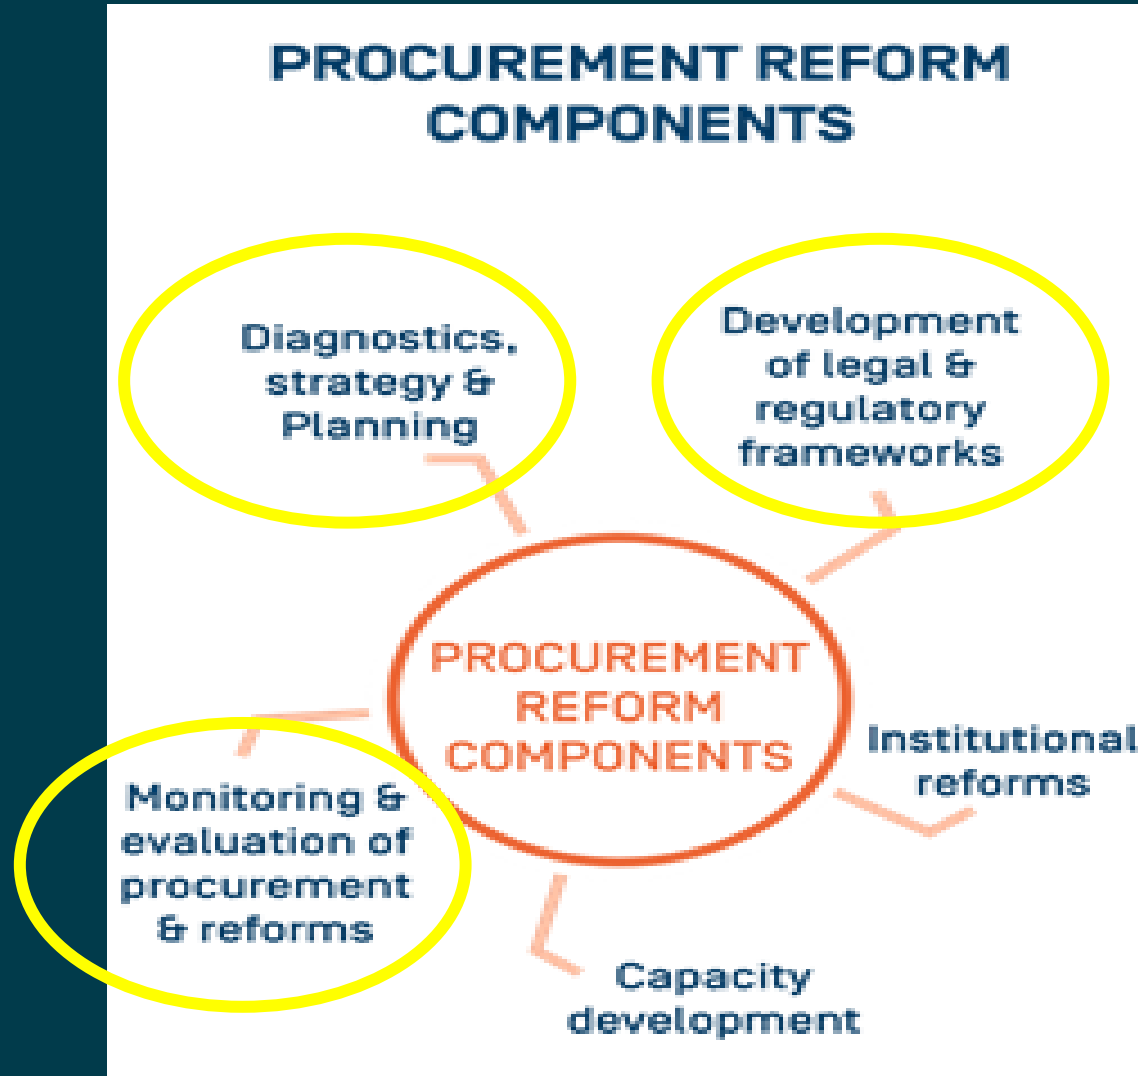

ePROCUREMENT

MONITORING AND  
EVALUATION FOR  
ACCOUNTABILITY  
AND LEARNING

- Overall architecture and design

Powers and Remit

## Overall architecture and design

### Key issues to be considered:

- Centralised vs decentralised
- Common use items/bulk procurement in a decentralised system
- Regional offices for oversight bodies to provide support
- Funding and reporting line. How independent can a new body be and where/who will it report to?
- Links to other arms of government

## Powers and Remit

### Key issues to be considered:

- What is within/outside its jurisdiction
- Guidance vs policy
- Are their instructions binding?
- Will they have powers of enforcement?
- Need to be credible and given the tools to do their job

---

## Monitoring compliance and performance

### Key issues to be considered:

- who is going to do this?
- baseline data vs targets
- standardised toolkits to ensure consistency of approach
- capacity and budget to undertake

**CROWN AGENTS**

ACCELERATING SELF-SUFFICIENCY & PROSPERITY

**STEVE GUPPY, FCIPS**

**Director of Procurement**
